

# HOW TO WINTERIZE YOUR SWIMMING POOL

**1**

## REMOVE ALL POOL ACCESSORIES

Ladders, filters, noodles, lights

**2**

## DEEP CLEAN

Get rid of algae and debris

**3**

## CHECK THE CHEMICALS

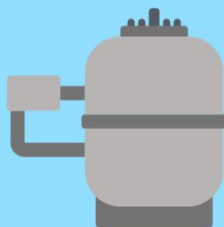

Use a test strip to check the alkalinity, pH level, calcium hardness and chlorine level

**4**

## SHOCK THE POOL

Distribute shock and algaecide to kill bacteria and algae

**5**

## COVER THE POOL

Cover with a pool cover or a tarp to prevent debris accumulation
